

User Guide for Donors

Print For The Cure

WEBSITE OVERVIEW: Donors should register or log in from the home page. Logging in grants the ability to claim requests, and see which requests are nearest. Requesters can request 4 different types of PPE: face shields, face mask comfort straps, hands-free door openers, and hands-free door handles. Requesters also choose a quantity of PPE, and an ideal delivery date. Donors can view various details of different requests from the map, or from the Nearest Requests menu. Donors can choose which requests to claim, and after claiming, they should create the requested PPE, then arrange a shipment or delivery.

PPE CATALOG: A catalog of the PPE can be found from the home page. There are 4 types of printable PPE:

Extra hardware is necessary for door handles and face shields. Door handles will require M4x12, M4x16, and M4 nuts to assemble. Amazon links:

To drill the holes into the plastic sheets, you can use this 3D printed template with a hand-drill:

Other Notes For The Donor:

Donors should look for requests which are most urgent, or nearest to them to claim and fulfill first. It's alright to miss the ideal delivery date.

After claiming a request, you will be emailed with the details. You are then expected to produce the requested PPE, then ship or delivery the PPE to the requester. The requester can also be asked to pick up the PPE if both parties come to an agreement.

AFTER A SUCCESSFUL DELIVERY: After you confirm that your requester has received the PPE, you are welcome to ask for a monetary donation from the requester as a reward. You may also contact us (printforthecure@gmail.com) at any time regarding reimbursements.
